## **SASKATCHEWAN GREEN DIRECTORY**

The Saskatchewan EcoNetwork received funding from the Ministry of Environment for the development and operation of a province-wide web-based green directory. This directory provides consumers with a listing of Saskatchewan-based suppliers that offer green products or services. There's a growing awareness in Saskatchewan of the environmental impacts of what we buy. People want to choose well, but it's hard to get information about what's available, or where to purchase. The Green Directory is designed to provide that information. This first phase of the project is for people who are renovating their homes.
